

ZHENGZHOU DELTA MACHINERY CO., LTD.

Address: Room 20/3F, Unit 2, Building No. 3, Xiangbin Shengyuan, No. 180, Huozhan street, Guancheng Dist. Zhengzhou, Henan, China

Dough divider cutter

Product Description:

1	This machine is dividing the dough into 6~600g small dough. A variety of molds are selectable to meet diverse usage requirements.
2	It comes equipped with an independent flour dusting box that ensures uniform and efficient distribution of flour, operated by a separate switch control.
3	The dual helix design guarantees a clean and hygienic dough feeding process, ensuring smooth flow and uniform kneading, thereby reducing the likelihood of jams.
4	Powered by a copper core motor , the machine operates smoothly with robust power and reliable quality, enhancing overall efficiency.
5	Equipped with a high-quality reducer , it runs safely and is made from durable materials, offering extended use and broad application across industries.
6	The cutting blade size and speed are both adjustable , with the blades coated in a non-stick surface layer to prevent dough from adhering.
7	Additionally, the machine sits on rubber swivel casters which provide convenient and flexible mobility .

Technical parameter:

Photo	Technical data:
	Capacity: 100-520 / min (adjustable) 150-200kg/h Motor: 2.5kw+180w+30w Final dough weight 14gram 32gram 45gram Voltage 220v Weight: 100kg Dimension : 700*460*970mm

Machine Photo Show:

Final shape and size of the dough can be adjusted by changing moulds.(Ranges from 2-500g,or even to 1000g.)

For Momo dough (50~150g),Bread Dough (100~200G),Dumpling dough (10~20g),steamed bun dough (10~80g).Nan dough (100~200g),pancake dough (50~80g),or pizza dough ball (80~500g),etc.

Remarks
